LIVING WITH SENSE OF RELAXATION

Living with the sense of relaxation

Matrix was founded in 2016 by a group of young creatives who value individuality, freedom, and the quiet beauty of everyday living.

We focus on designing and crafting kitchen sinks, stand on the buyer's perspective — and what we truly care about is how each sink quietly fit the rhythm of daily life. We listen, we refine, and we let the details speak for themselves. Cold steel becomes warm to the touch, textured with thought, and made to belong.

We respect the classics, but we're never afraid to explore new ideas.

Sometimes it's the quiet satisfaction of setting down a full stack of pans.

Sometimes it's the hush of water sliding along a soft curve — unnoticed, but felt.

OEM/Branding with Matrix

Matrix offers both OEM services and distributes products under “Matrix” brand catering to diverse client preferences.

In-House Manufacturing

2 production workshops for handmade sinks and pressed sinks, Matrix utilizes specialized production lines to efficiently produce both handmade and pressed sinks, ensuring stringent quality control.

Quality Standards

All products are manufactured to fully comply with EU and AU quality standards, ensuring suitability for these markets.

Recycling Materials, Extending Possibilities

Good materials should never be wasted, and sustainability is a principle that drives us forward.

At Matrix, we place great emphasis on utilizing sustainable resources. pushing the boundaries of what's possible with eco-conscious design.

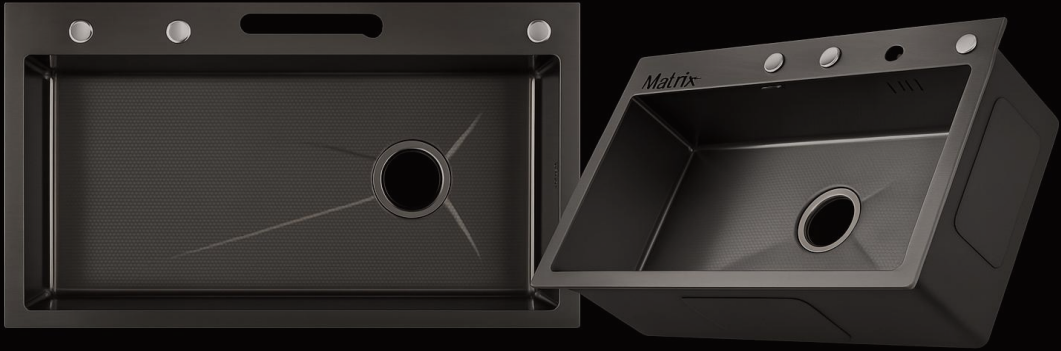

More Than Just a Kitchen Tool

We don't simply create a sink; we design an experience for your everyday life.

Every time you lean over to wash your hands, the gentle touch of the steel sinks in, a quiet moment amid the hustle of daily tasks.

Crafting Every Inch of Stainless Steel

Matrix carefully selects SUS304 stainless steel and handcrafts each R corner, casting light reflections that bring warmth and quality into your kitchen.

We believe exceptional products are not just about design—they embody our commitment to superior materials and timeless beauty, enriching your life.

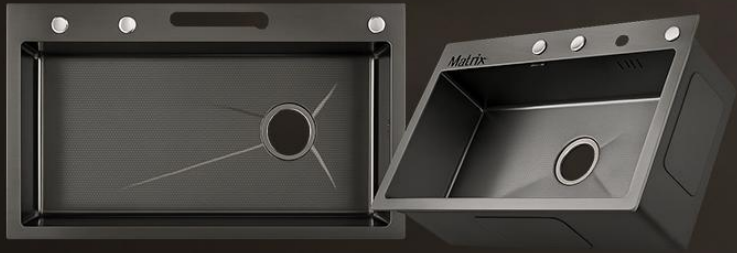

Versatile Design for Every Kitchen

Matrix sinks are designed to seamlessly fit , into a variety of kitchen spaces, from modern homes to yacht kichen.
